Lubanpack is one of the leading plastic water tanks, poly tank, manufacturing company in United Arab Emirates and we also have factories in Saudi, Qatar, & Bahrain. Which serves the needs of thousands of satisfied customers throughout the region

Quality:

Lubanpack products are manufactured using medium-density polyethylene an environmentally compatible hydrocarbon. Poly tank products are designed using the latest and finite analytical methods, to manufacture safe, strong and durable products roto-molded to every customers need.

Our Poly tank's water tanks are tested and passed by major laboratories in the U.A.E and carry material and performance guarantees. The materials help guard against bacteria, fungus and algae. It has high environment stress resistance and is able to withstand high-pressure impacts, poor temperature conditions and prevents water from ultra-violet radiation, rust and leakage.
